Building Community Infrastructures
for
the Internet Cyberspace
by "Mert Gör" GFDL1v.3 or any later
Any device that runs over network
+
Any device 24/7 supported with a convergent
approach

Building Community Infrastructures
for
the Internet Cyberspace
by "Mert Gör" GFDL1v.3 or any later

converging Teams for speeding up the processes
as in matter running instances and development
and administrative lifecycles

Building Community Infrastructures
for
the Internet Cyberspace
by "Mert Gör" GFDL1v.3 or any later

And this is an open way to software and open infrastructures

abilitiy to change hardware which is controlled by users/consumers
control over software
control over teams
This is how our projects works
Happy Converging!
